

Starting the final-year project (2026-27)

Dr Yixuan Zou

June 2026

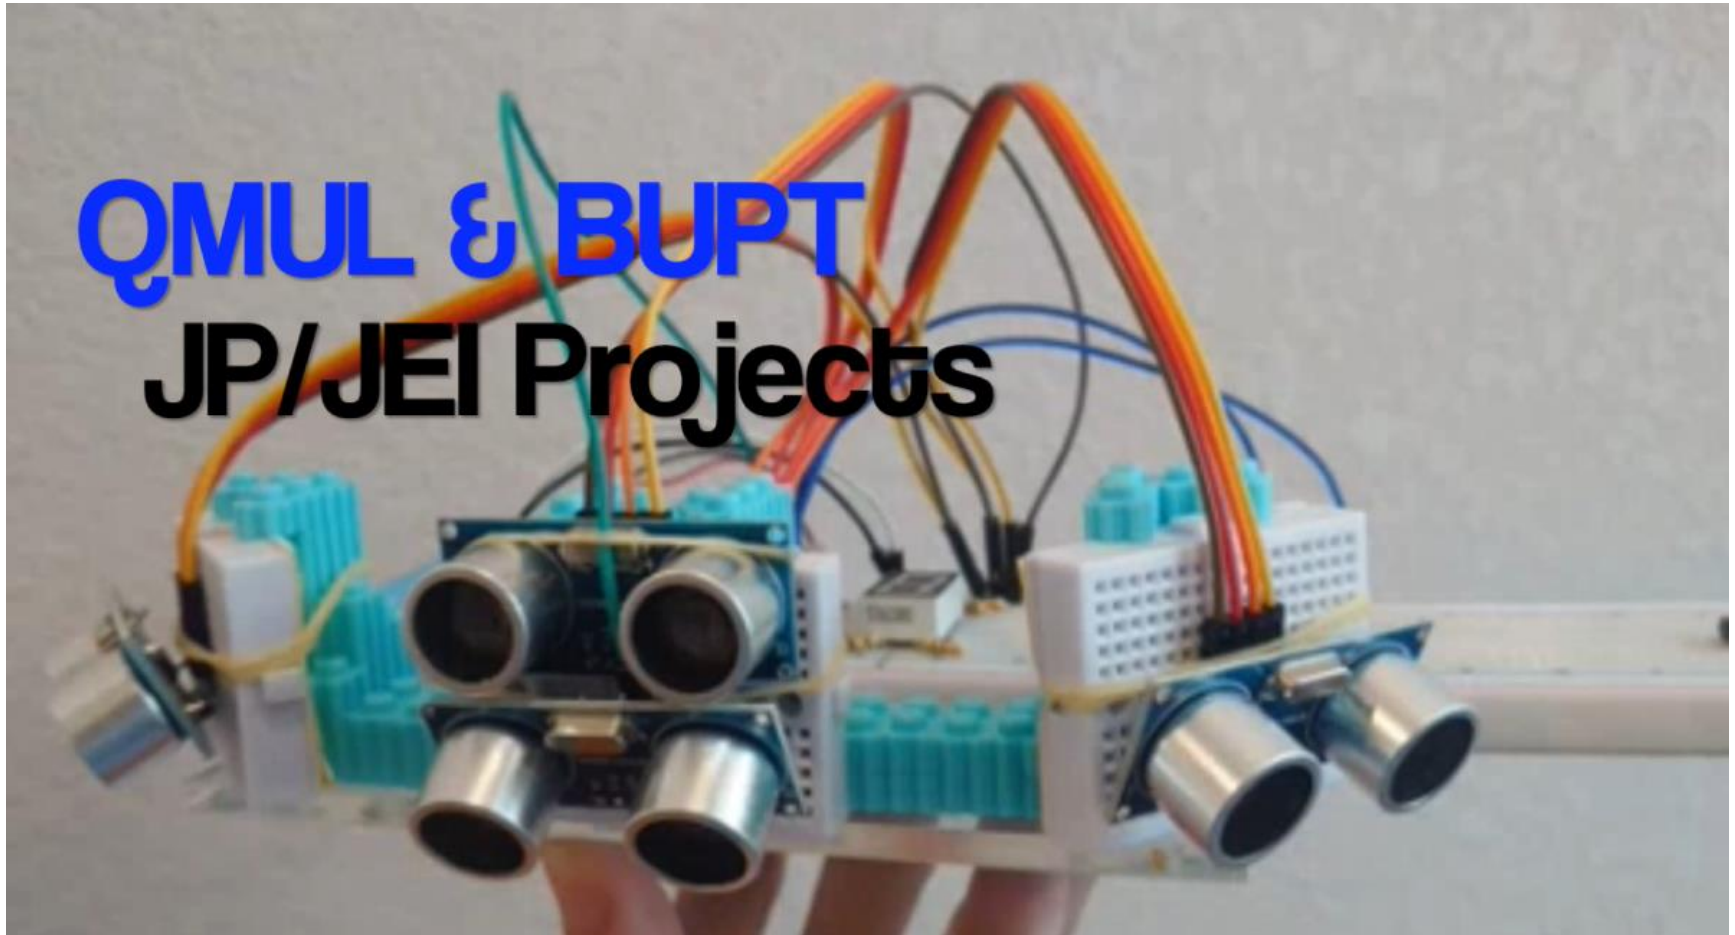

Important points about final year project

- ◆ 6 Months, late Oct 2026 – early May 2027
- ◆ The project counts a lot:
 - 20% of the Honours weighting for the QMUL degree
- ◆ If you **fail** the project you will not get a degree.
- ◆ It is important for MSc/PhD application, Job interview.

What is a final year project?

What is a final year project?

- ◆ Substantial amount of **Individual** work
- ◆ All projects, must be **your own work**
- ◆ you need to produce something to demonstrate that you have done actual work
 - Software applications
 - Hardware devices
 - Simulation results
- ◆ ALL projects must involve Engineering Design

Application areas 2026-27

Networks and Wireless

Software Development

Multimedia and Vision

Data Science and Artificial Intelligence

IoT Systems

Project selection timeline

Self-allocation: Propose your own idea and find a supervisor

By August 2026

Pre-allocation: have a clear direction and follow a supervisor's project

By September 2026

Normal allocation: Choose a project from a list of supervisor proposed specifications

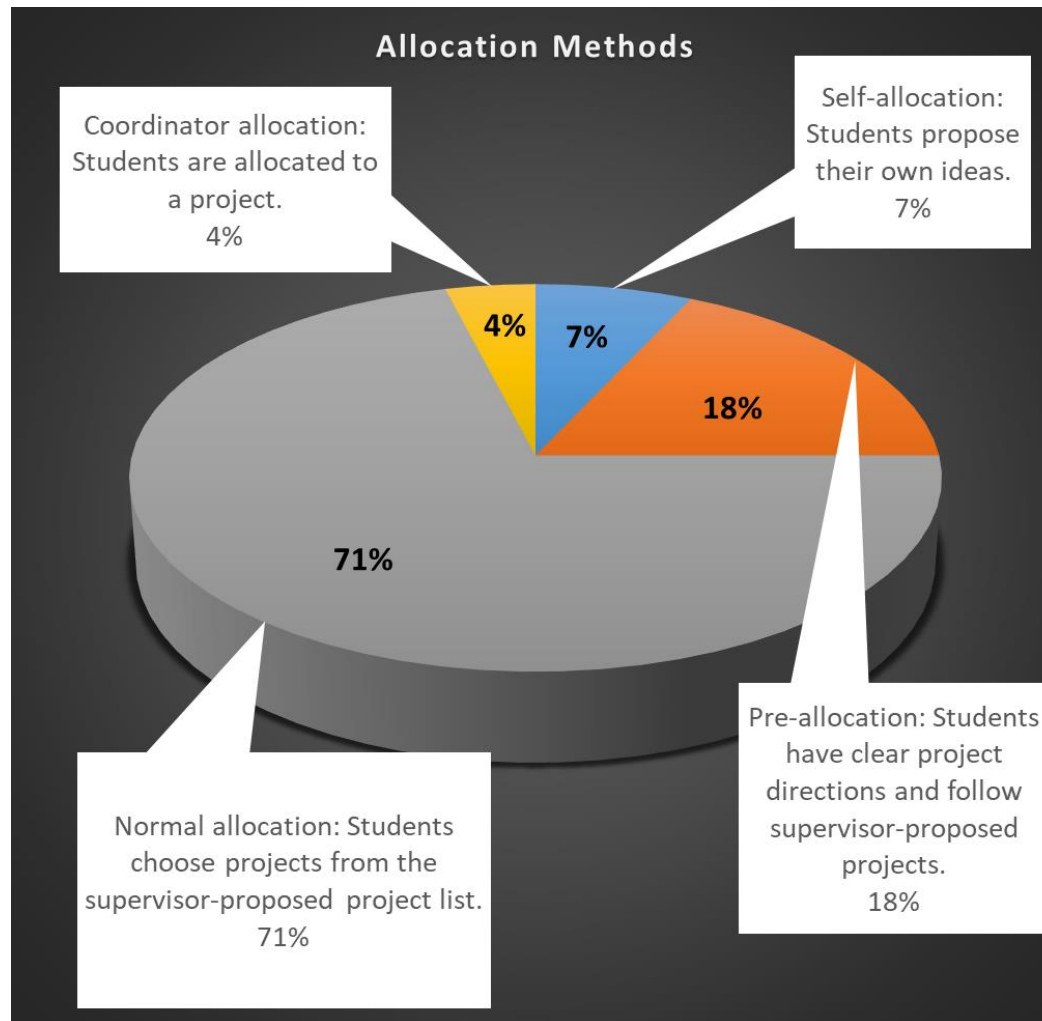

October 2026

Co-ordinator allocation: Be allocated to a project

End of October 2026

Statistics from the past

Self allocation

- ◆ Propose your idea and contact potential supervisor, discuss the idea and agree with a proposal
- ◆ Fill in an online project proposal form (available from **1st August 2026**), details to be sent.

Pre-allocation

- ◆ Students doing MSc at BUPT
- ◆ Your supervisor needs to submit the project specification by 1 September 2026

Normal allocation: choose a project

- ◆ More than 600 projects to choose from
- ◆ Project type
- ◆ Application area
- ◆ Supervisor (QMUL/BUPT)
- ◆ Mid Oct 2026

Get to know QMUL supervisors

- ◆ QMUL supervisor list can be found on QM+.
- ◆ QMUL supervisor introduction videos are also available on QM+.
